

Million Women Mentors
Delaware

Engineering Your Tomorrow

2026 Event Summary

Storm Smart Streets - Engineering Challenge

Girls used the engineering design cycle to design cities to withstand increases in stormwater runoff in our engineering challenge, Storm Smart Streets.

Career Expo

Girls discovered a diversity of STEM careers thanks to our sponsoring companies.

Afternoon Activities

Girls explored programming with our partner Kai Coders and learned about conductivity with the Dept. of Materials Science at the University of Delaware.

86 Girls
19 Caregivers
94 Volunteers

100% of Girls
came because they are
interested in STEM

School support
increases
participation

Girls Came From Across the State

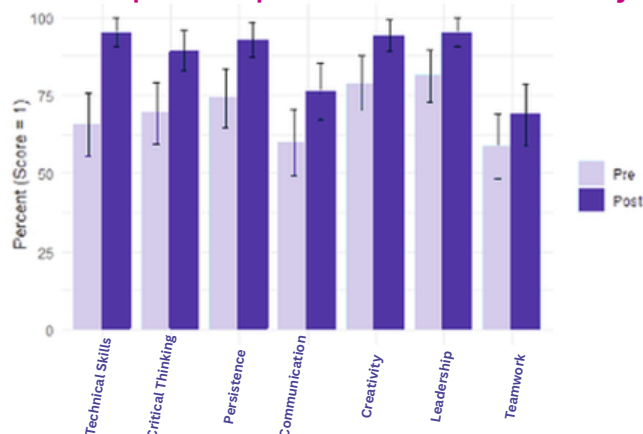

Clayton*	32
Wilmington	28
Middletown	6
Hockessin	5
Newark	4
New Castle	2
Chester, PA	1
Camden	1
Smyrna	1

*Providence Creek Academy in Clayton provided bus transportation for their students.

Impact Survey Results

Girls self-reported improvements in all skills surveyed.

Why it matters?

Girls who are confident in their skills and believe they belong in STEM are more likely to pursue it.
